Series **136**

N.O.

Normally open

Coil energised - closed
Coil de-energised - open

General description:

PARKER series 136 solenoid valves are direct operated and do not require a minimum differential pressure to operate. They are used for general applications with media such as **water, air, light oils (2°E) and inert gases**, provided they are compatible with the construction materials used. Series 136 solenoid valves are **normally open** with inlet and outlet in line.

Temperatures:

The working temperature for media is:
maximum **+140°C**
minimum **-10°C**

The maximum ambient temperature is:

- with class "F" coils **+50°C**
- with class "H" coils **+80°C**

Coils:

For series 136 valves class "F" coils (**155°C**), encapsulated in thermoplastic containing 30% glass fiber (types: ZB, YB), and class "H" coils (**180°C**), encapsulated in thermoplastic containing 40% glass fiber (type: ZH), are available. All the coils are for continuous service, 100% E.D. The rated voltage tolerance is: **±10% for A.C.** power supply and **+10% -5% for D.C.** The "Z" and "Y" coils can be used on a.c. with frequency of 50/60Hz (dual frequency). The "Z" coils have Faston terminals for **DIN 43650A** connectors with protection to **IP65**. The "Y" coil has terminals with 2 x 1,000 mm cables with protection to **IP67**.

Application:

Series 136 solenoid valves are ideal for the automatic control of media for the following applications:

- generating sets;
- water purification plants;
- sterilisers;
- air dehumidifiers;
- industrial refrigerators;
- distribution of light oils.

For air applications the maximum differential pressure (MOPD) can be increased by 25%.

Installation:

The valves can be mounted in any position without jeopardising their operation. It is however advisable to install them with the coil in a vertical position above the body.

Approvals:

- For the coils:
 - ZB 14** 115V/50-60Hz, 220-230V/50-60Hz
 - ZH 14** 24V/50-60Hz
 - ZH 16** 12V DC, 24V DC
 - YB 14** 220-230V/50-60Hz
 - YB 16** 24V DC
- For the coil:
 - ZB 14** 220-230V/50-60Hz
